Rubin Family Chiropractic Announces New Service: **Transformational Pediatric Chiropractic**

**Help for the behaviorally challenged,
brain injured/neurologically imbalanced,
or the severely immunologically weakened child!**

Does your child fit any of these categories?

Is your child behaviorally challenged? Does he/she have ADD, ADHD, Learning Disorders, Sensory Dysfunctions, Aspergers, ASD?

Is your child on a brain injury spectrum? Does he/she have Autism, Cerebral Palsy, Tics, Tourettes, Genetic Disorders, Birth Injuries, or other significant neurological delays, executive dysfunctions, or physical incoordinations?

Is your child severely ill with chronic asthma, allergies, ear infections, sinus problems, frequent colds or upper respiratory infections, or chronic gastrointestinal disturbances?

If the answer is YES to any of the above, then we may be able to help! In a comprehensive 1-2 hour examination, Dr. Rubin will help uncover the weaknesses in your child's nervous system and create a plan of action that may include neurologically specific exercises and rehabilitation (done in future ½ hour to hour sessions as well as home exercises), nutritional overhauls, and chiropractic care specifically designed for the challenged child.

If your child or a child you know has been everywhere and has not gotten results, they haven't tried this cutting edge new approach. Call the chiropractor with almost 20 years of experience, a Diplomate in Pediatrics, as well as 7 years as faculty at Life University. Call or e-mail Rubin Family Chiropractic today to schedule a consultation or to find out more about Transformational Pediatric Chiropractic. 770-937-6300, rubinchiopractic@gmail.com. By appointment only (Tuesday's 8am-1pm).
