Hello Potential Peak Intern!

We have a very special and unique pediatric, family-based intern program that to date has graduated over 110 interns from all over the world. It is especially distinctive in that we offer pre-Peak training starting in your 10th, 11th or 12th quarters, so that on day one you start adjusting! For example, one recent intern on her first day had 18 adjustments and performed 4 exams!

If this sort of training to boost your confidence and get lots of hands-on kids, pregnant mommas, and entire families is for you, then please send an email to drubin@life.edu, as we are generally doing interviews for quarters that are 1-4 quarters away from the current one (for instance, our Fall Quarter 2025 was already filled by Spring 2025). Please don't wait until your 12th quarter to apply because it might be too late!

Thanks and looking forward to hearing from you...

Dr. Drew Rubin, BS,DC,CCSP,DACCP

Life U Faculty since 2001
